EPA Region 2

While Freedom of Information Act (FOIA) requests will be honored by directly writing to Region 2, EPA provides an increasing amount of environmental media information, and other Regional activities via Internet at <http://www.epa.gov>.

Region 2 has provided a FOIA Web site <http://www.epa.gov/region02/foia/> with several online databases from which the environmental information can be retrieved.

- **"Frequently FOIAed Files"** Web site <http://www.epa.gov/region02/foia/fff.htm> covers RCRA and many other media Programs. Through this Web site, you can learn about each media Program, associated databases, and special points of interest. In particular, the ability to "directly download" all of the most commonly requested Region 2 Export Files (.xls) and Reports (.pdf) - all compressed for quicker downloading.

EPA Region 2 has established a **list of contaminated facilities** that are a high priority for cleanup in New York, New Jersey, Puerto Rico and the U.S. Virgin Islands. You can view each facility fact sheet at <http://www.epa.gov/region02/cleanup/sites/>

EPA- Headquarters

- **Envirofacts Data Warehouse** Web site <http://www.epa.gov/enviro/index.html> is a one-stop source to the environmental information. This Web site provides access to several EPA databases with information about environmental activities that may affect air, water and land anywhere in the United States.
- **"My Environment"** Web site <http://www.epa.gov/myenvironment> is a powerful tool that provides a wide range of federal, state and local information about environmental conditions and futures in an area of your choice.
- **The Enforcement and Compliance History Online (ECHO)** Web site <http://www.epa.gov/echo/> provides a list of all inspections and enforcement under most of the environmental statutes.
- **Right-To-Know Network (RTK Net)**, a non-EPA Web site <http://www.rtknet.org/> on-line query engine provides free access to numerous databases and resources on environment.
- **National Biennial RCRA Hazardous Waste Report** Web site <http://www.epa.gov/epaoswer/hazwaste/data/biennialreport/index.htm> provides documents and data on hazardous waste reports.

Subject: Your Letter Dated May 19, 1982
EPA Identification Number: ~~NJT000003756~~

NJD055930549

Dear Mr. Androwski:

We have received your letter dated May 19, 1982 which requests that we amend Celotex's Notification of Hazardous Waste Activity form. On October 19, 1980 we received Celotex's notification form, and it indicated that Celotex generates hazardous wastes. Please note that this form is not a permit; it merely provides certain required information and allows for the assignment of a EPA Identification Number.

The Resource Conservation and Recovery Act (RCRA) requires anyone who treats, stores and/or disposes (TSD) of hazardous wastes to submit a permit application before initiating any such activities. Since you have indicated that Celotex may conduct a TSD operation, I have enclosed a permit application which should be completed, signed and submitted to my office within 30 days from your receipt of this letter. Please be advised that any treatment, storage and/or disposal of hazardous wastes which has occurred at your facility *is may be* in violation of the regulations, and therefore subject to enforcement action under Section 3008 of RCRA, 42 U.S.C. §6928. Violations of RCRA may incur penalties of as much as \$25,000 per day of violation.

If you are no longer operating a hazardous waste TSD facility, or if your original notification was incorrect, please inform us of that fact, as well as the date you ceased operation, so that we can update our records. If you are still operating a TSD facility, you must apply for a permit by completing the enclosed application forms and submitted to:

Submitting them to:

United States Environmental Protection Agency
Permits Administration Branch
26 Federal Plaza, Room 432
New York, New York 10278

You should also be aware

-2-

Please be advised that the submission of this application does not preclude the initiation of an enforcement action by EPA. If you have already submitted your Part A Application, please respond by providing the date of your submittal, your EPA Identification Number, and copies of your application.

Should you have any questions regarding this letter or your application, please write to the Water and Hazardous Waste Compliance Section, Permits Administration Branch.

Sincerely yours,

Walter Mugdan

Sir:

The following is a report on our hazardous waste activity covered under temporary permit #NJ P000770875. Waste was generated by chemically cleaning our hot oil heating system on 6 August 1981. All work was completed on the same day. Enclosed is a copy of the New Jersey Manifest #NJ0088948. Only one waste was handled approximately 5,000 gal. of corrosive liquid.
